Dear Sir/Madam,

Glasgow City Council QEUH Bus Improvements (Manse Brae) (Traffic Regulation) Order, Comment and Objection to one part.

GoBike! supports the principle of this Order. We applaud your move to improve bus services, particularly to the new hospital. We also approve the restrictions on motor vehicle parking on the carriageway; not only does such parking impede the passage of other vehicles but it reduces the ability of pedestrians and cyclists to travel.

However, we do object to that part of your plan where you propose "To introduce a 'Prohibition of Driving' restrictions on Manse Brae at Carmunnock Road" with no indication that cycles will be allowed to get through. It is very desirable that access is provided to and from Manse Brae for people who choose to use cycles. At the very minimum dropped kerbs should be provided but preferably a road level route in and a route out should be provided, with bollards as necessary to keep the routes clear of motor vehicles.

If you can confirm that cycles are excluded from the blocking up of Manse Brae, we will remove our objection.

Yours sincerely,

Convenor, GoBike!
