

WOODSIDE ACTIVE TRAVEL CONSULTATION

Glasgow City Council is holding an online consultation and walk-in session with design workshop to assess how we can improve walking and cycling in Woodside.

We are proposing a number of changes to improve the environment for cyclists, pedestrians, local residents and businesses.

New designs could see the implementation of:

- ◆ New public space and paths
- ◆ Pedestrian and cycle zebra crossings
- ◆ Reallocation of road space
- ◆ Segregated cycle lanes

This is to increase road safety, improve public space, increase the number of cyclists, and reduce sustainable transport journey times.

We would like to invite you to comment online or attend a walk in event with a design workshop. Have your say in the creation of your place.
