

**THE GLASGOW CITY COUNCIL
(FINNIESTON BRIDGE)
(EXPERIMENTAL TRAFFIC REGULATION) ORDER 2018**

Report

Glasgow City Council, propose to allow taxis and authorised vehicles to access the segregated section of the Finnieston Bridge.

The purpose of the Experimental Traffic Regulation Order is to determine the effect of permitting taxis to access the segregated section of the Finnieston Bridge and to determine the effect on the journey time of buses currently using the Fastlink infrastructure.

The proposal was subject to discussion and agreement between Glasgow City Council, Glasgow Taxis, Strathclyde Partnership for Transport and the SEC.
