Hello Mr Toms

Further to your recent enquiry regarding the above, I write to advise I am now in receipt of a response from Land & Environmental Services on this subject.

The department has advised the new access ramp is a companion to the new, steel staircase at this locus and provides a barrier free entrance to the Kelvin Walkway, particularly for cyclists. It has been constructed to the best available profile given the topography at this locus.

Please be aware that the access will be gated and locked each evening in keeping with other accesses on to the walkway and into Glasgow Botanic Gardens.

I trust the information provided above by the department is of assistance. However, should you require any further assistance on this or any other matter, please do not hesitate to contact me.

Regards

Mary Brown
